

## Submission

This a council wide submission put together by [REDACTED], a former Corby Borough, Northamptonshire and North Northamptonshire Unitary councillor. I have lived in Corby since 1980 and been active in local politics for much of that time.

I do not have access to mapping software so worked from pieces of paper to map wards. I can supply them if required. I can also supply a detailed spreadsheet showing numbers of electors in each ward by Parish/Polling District and variances from the standard number of electors per councillor.

I have tried as far as is possible not to split parishes and to divide up the larger towns within their town council borders. I have used parishes and polling districts as building blocks and have attempted to construct wards that can be travelled within and that reflect community identities, making use of identifiable boundaries where possible.

I am proposing 45 wards in total, with a mixture of 1, 2 and 3 member wards. The elector numbers I quote are those projected for 2028.

### Proposed Wards

#### Irchester – 4118 electors

A one member ward Comprising Irchester (part) and Little Irchester - Polling Districts ICD part (all of ICD except that part to the east of the railway line) and ICE
