### Comment text:

Sir I have been advised of the proposed ward changes by our Local District Councillor I agree entirely with North Herts District Council stance. It is quite inappropriate to join current rural wards with that of the new Baldock East including the new proposed expansion. The ward suggested by the Boundary Commission would be far too large to manage properly as the requirements of rural and urban communities are totally different and require more specialised attention from a District Councillor attuned to these particular requirements. It seems to me to leave the current wards as they are and to allocate an extra councillor to deal with urban issues to serve Baldock East incorporating the new Baldock expansion.
