Comment text:

As a resident of Bygrave for the past 7 years, I am deeply concerned by the proposals to merge our current one member ward of Arbury with Weston and Sandon whilst absorbing Baldock and all the proposed development around Baldock. This would create an overly large area represented by only 3 members, and due to the vastly different wards and their respective requirements, their residents needs will not be voiced or met. I hope that you will consider the approach previously proposed by the Council rather than the one being recommended here by the Commission.
