To Whom It May Concern

I am writing to make my view known on the changes to the new ward boundaries. The recommendations of the Boundary Commission do not work on a day to day level for the people and the elected officials of North Herts. It may be a simple solution on paper, but would make management of the 11 Parish councils within in it very difficult & there would be no effect on electoral equality by adopting the recommendations of our local Council. Furthermore, villages & the extended Baldock urban area have very different needs, putting these together would mean neither ever get the best outcomes for their residents. It makes no sense.

This is a clear situation of the local council knowing what is right for the local people of North Herts. Please adopt the North Herts Council version of the boundary changes.
