I wish to disagree with any Boundary changes. The boundary changes appear to totally miss the nature of the areas that are covered. To add areas such as the new development near Baldock and Clothall to rural parishes when they will be in general urban and much aligned with the needs of Baldock appears to be the wrong answer to a question that has never been asked. Also dividing a ward with the A505 and making travel to the Parishes greater and more dangerous again seems a backward step. The Wards should reflect their residents be they rural or urban and not mixed. The use of an all encompassing name such as Arbury should be maintained. In essence I agree with the NHDC's report at point 7
