Ashwell and Weston proposed area - there is no rational argument for putting two very diverse areas together, particularly as the existing Arbury Ward works very well. To include the Ashwell Bygrave Newnham group of Parishes with the whole Wallington/Weston etc area on the other side of the A505 is trying to merge two differing community set-ups which don't in any way work together. The A505 forms a significant barrier rather than enabling any links. In addition the future built up area of North East Baldock will skew the attention away from villages with completely different issues. There are too many differences between these areas to make a coherent new Ward.
