### Comment text:

As a resident of Bygrave, I am deeply concerned by your proposal to merge our current one member ward of Arbury with Weston and Sandon ward and also absorb Baldock and all the proposed development around Baldock. This would create, in my opinion, an overly large area represented by only 3 members. I am also of the opinion that the wards are so vastly different in their requirements that not all residents needs will be voiced or met. For example, I would consider Arbury, Weston & Sandon to be rural areas affected by rural issues and Baldock and the proposed development will be more focused on urban issues. I hope that you will consider the approach previously proposed by the Council rather than the one being recommended here by the Commission.
