Comment text:

I am a Five Oak Green resident concerned about Capel and Pembury merging into one ward. The two communities are different in character and do not share links. Pembury is more a suburb of Tunbridge Wells where as Capel is more closely linked to Paddock Wood, even more so given the new housing development in South Paddock Wood. Councillors in Pembury some 5 or 6 miles from Capel and separated by the A21 will not have understanding of the area or concerns particularly with regard to proposed developments in East Capel and Tudeley. It is not inconceivable that a resident of Pembury may never have set foot in Capel as Pembury residents are more naturally drawn and move in the other direction towards a Tunbridge Wells. Very little in the way of public transport links exist between the two areas and the resources they need cannot be shared. Concerns with local areas will be different in the two locations and could not be properly served in one Ward.
