Comment text:

I am absolutely staggered beyond belief that new proposals are being considered PRIOR to the result of the 2022 TWBC Local Plan Examination. If one compares the proposals to The Plan it becomes clear that the representations would not reflect the need in each town, community or village. The current situation is already ridiculous but this just makes it worse as it will be fixed for many years and developers will run riot all over the borough. Big mistake to discuss or agree prior to the TWBC Local Plan result.
