### Comment text:

The redevelopment planned in the Tudely area means that the population of Capel parish is set to grow rapidly, therefore it does not make sense to combine that parish with Pembury and diminish Capel's representation at TWBC. If, for whatever reason, it is still felt appropriate to combine Capel with another Parish then it makes considerably more sense to combine it with Paddock Wood. The two areas have a much stronger link, and the two main population centres of Five Oak Green (Capel) and Paddock Wood town are separated by little more than a mile and have direct transport links.
