### Comment text:

Rusthall has a population of over 4000, three councillors and is a 15 minute walk, or five minute drive, to the town centre. It elects a selection of councillors across the political spectrum — as befits its diverse population voting for their own interests . Amalgamating it with Speldhurst and Langton will mean that these diverse voices are subsumed into those wards' overwhelmingly wealthy and rural needs — thus are not heard. These wards have little in common and geography alone would logically place Rusthall in the TW west ward. My chief concern is that our votes will cease to count in any meaningful way.
