### Comment text:

I understand that there is a possibility that Goudhurst and Kilndown may be split apart. I think that this is a very bad idea. Historically the two villages have been interlinked, they share the same church organisation, they have the same joint magazine and have common problems such as 60 mph speed limits on narrow country lanes, children of all ages that have to attend many different schools and the inconvenience and danger due to the wholesale parking on the pavement.
