Comment text:

The proposal suggests amalgamating both Brenchley & Horsmonden Ward and Goudhurst and Lamberhurst Ward, into one new Rural Tunbridge Wells Ward. This is far too large and diverse an area to all be incorporated into one Ward. The needs of these respective communities are diverse and cannot be effectively lumped together as one "rural" parish. Furthermore the overall proposal to reduce the total number of TWBC councillors from 48 to 39, is incompatible with the size and various needs of the residents of the Borough. I strongly disagree with these suggested changes and hope that common sense will prevail to protect local community democracy and retain the status quo.
