### Comment text:

Firstly can I say that clicking on the map, as said, does not seem to bring up how many voters are included in it and how many councillors we propose should represent it. If I am correct should someone be held responsible ? That said, I am all in favour of giving councillors and the mayor on c. £75K pa more responsibility and something to do. Some have had it too good for too long I costs somewhere in the region of £1m pa for mayor and councillors before we even start, and if the public have felt the effect cuts so should the council to give VFM value for money I feel that this is quite a complex issue especially with all the related links and bumff which I could spend a lot of time on but I have already spent too much time trying to better NT my local area particularly I am concerned at who sees this as I have already had repercussions
