### Comment text:

Dear Sirs /Madam, I would just like to thank you sincerely and grateful for the decision you supported for the residents of Shawforth to remain in our village as we know and love as Whitworth. I can not begin to tell you how proud I am of our little village steeped in history to which it will remain. The joy and elation of this news was gracefully received by all residents and a celebration we will have in our now secured future. I also thank the position you hold as independent and appreciate that no bearing of a political person holds nor sways your final decision only to have listened with real compassion and empathy to each view point made by the people whom are truly passionate about where we live and all that we stand for. We are truly delighted and can not put into words the level of gratitude we hold for the people whom made the decision for us to stay. Truly and sincerely One very proud member.
