### Comment text:

Glad to see that the village of Whitworth is staying intact The Councillors who represent the village all work hard and for the best of the residents of the village ,we have our own town council,councillors well 99% of them live in the village ,you can contact easy ,you also see them out and about in the village and they are very approachable and listen I'm sure the 3 who represent Whitworth will do there best for our village .....having people who live in village represent residents makes a huge difference
