### Comment text:

I currently represent Bugbrooke Ward and I believe that the Champion Ward is an accurate reflection of local communities and should remain as proposed. It is largely coterminous with the catchment area for Champion School, the local secondary school in the largest village, Bugbrooke, and brings together villages that largely share a doctor's surgery in Bugbrooke and use the shopping facilities in the west of Northampton. Many of the villages are also connected by the same bus routes and main road (A4500). Furthermore two councillors would share a reasonable workload and be able to adequately represent the different villages in the ward.
