**Email:** phil.bignell@westnorthants.gov.uk  
**Postcode:** XXXXXXXXXX  
**Organisation Name:** West Northants Unitary Council (District or county councillor)

## Comment text:

**Related subject:** Long Buckby Ward

1. Watford - currently in Long Buckby Ward - moves to Braunston & Crick which has no links/association with. The PC are very dissapointed with this idea and have made seperate representations. I agree and should remain in the Long Buckby Ward. Watford Parish associates itself with Long Buckby and has little by way of connection or shared issues with the areas covered by Braunston and Crick. Those in Watford use the GP surgery within Long Buckby and attend both infant and junior schools within Long Buckby.
2. West Haddon - currently in Long Buckby Ward and should remain so. . As with Watford, the Parish Council have stated a strong desire to maintain links with Long Buckby. West Haddon residents use the GP surgery within Long Buckby and make use of the services such as the Library within Long Buckby. Transport services serve West Haddon via Long Buckby. Although having their own school, many children from Long Buckby attend West Haddon Primary and vice versa.
3. If this mean the total population variance is greater than the stated maximum variance, I would be content to see Harleston Manor CP which has no links to Long Buckby located into Duston or Campion Wards.
4. Campion - as a resident of this Ward I see no reason to change name from Bugbrooke to Campion as the name Campion in no way represents the villages other than it is the name of the Secondary School in Bugbrooke. Campion is old family name and as such should not be used for a cluster of villages centered around Bugbrooke.
