### Comment text:

I am delighted that LGBCE have decided that Holcot should be in a rural ward with other small parishes. This is in-line with my comments at the initial consultation stage. I don't know why Walgrave and East Farndon have been selected to name the ward - I would have preferred a more generic name to take the focus away from specific villages and the risk that those parishes become pre-eminent in WNC operational thinking. However, it is difficult to think of a satisfactory generic descriptive name, because West Northants North East doesn't really have a great ring to it!
