As a current councillor I can say that it would be really difficult to carry out the functions of a councillor in a ward which would be reduced to 2 rather than three

Our communities rely on our services and because of cuts to the budget residents are experiencing many more problems which we as councillors have to be on hand dealing with. Having been a councillor for five years my working load has trebled and I don't believe that this will reduce anytime soon. I and my colleagues work really hard to keep on top of the workload.
