Comment text:

Related subject: All the Council area. However I live In Dunston.

The size & social mix of our adult population within the Borough has hardly changed since 2002. There is little new industrial or commercial or housing or transport development happening or expected in the next 8 years.

There will be no new longterm land use plan until the 2030's.

Therefore there should be less case work expected for councillors from electors. Also no need for more committee work by each councillor.

I therefore suggest that the number of councillors is reduced from 66 to 44.

That is equivalent to a reduction from 3 to 2 councillors for each of the existing 22 wards.

Thank You for considering my submission.
