Related subject: Whickham

Far too many councillors costing the earth when cuts have been made or are being made where local volunteers such as whickham library, planting up whickham, lighting up whickham and now even swimming baths, and doing a better job in the bargain. Gateshead planning riding roughshod over taking over part of Chase park for building when it doesn't belong to the council but the people of whickham. Gateshead high street is a disgrace when other projects like the quayside developments take priority. Also knocking down the "Get Carter" building and replacing it with another "Get carter" building. Also the stupid traffic rearrangement at the end of Askew road. I complain all the time to my local councillors but nothing happens.
