## Comment text:

I would quite like the number or leaders at the council to be reduced with more staff on the ground doing work in the community. Particularly if we are a combined authority for somethings and not others, surely there must be wastage there?  
Overall I want value for money, currently my council tax only seems to pay for emptying my bins. The roads are a disgrace, roadside drains don't get cleared leading to flooding, littering is a real problem and so is fly tipping
