We have too many GMBC Councillors. 3 per Ward is far to many. You have Councillors who do very little if anything but attend social events such as coffee mornings, taking it as a photo opportunity, and others who are bombarded with requests for help because they do the job properly. If you reduced the amount of Councillors to 2 you would save 22 x £12000 per year plus expenses and session payments. A total of £264,000 plus expenses. A commitment to do the job properly should be an essential element.
