Organisation Name: (Member of the public)

Comment text:

Related subject: Cutting back on the number of Councillors running Gateshead.

The first cut to save money is to cut back on Councillors and bring the numbers in line with other Metropolitan Councils across England. If this had of been done years ago we would NOT be closing down vital other services that the public have always relied on. Over the past 50 years or so, the Labour run Council have wasted £millions over the years through mis- management. So now they should be made more accountable, and a smaller amount of Councillors would be more manageable.
