Comment text:

Yes I agree to many councilors can't see what there function is as Gateshead is classed as a poor constituency so instead of paying all theses people who by the way you never see why not download these people and start putting there money where there mouths are into GATESHEAD and get these housing that are riddle with damp sorted It's the staff who work under these people who are the only people you speak to so what's the point of these people Oh yes forgot the money
