## Comment text:

I disagree strongly with the number of Councillors in GATESHEAD. They are not providing us with the basic services to keep our streets clean. No street cleaning provided for a very long time. Drains have been blocked. Weeds not treated on pathways. No removal of leaves and branches of trees resulting in unsafe pathways. Our Council tax is one of the highest in the UK yet our services are poor. Reducing the number of Councillors would save money and hopefully improve the services we are entitled to.
