Related subject: Felling Gateshead

After viewing a leaflet with regards to councillors within Gateshead and the increase numbers that are paid to represent the people, I, and any others, feel that this needs addressed and reduced.

Too many get paid for second rate work for the people of Gateshead.

We have continually asked for clarification on many topics, asked if they can help with this and that, activities for the people that are held by 'friends of' and none represent that ward they work in.

Too long has this become a Labour stronghold and if there's 66 Councillors, which is huge in terms of the people, then it needs addressed.

A full re-register and voting system should be done to clear out old and damaged wood.

So we can have someone that will listen, reply to us, want the best for us and will always push for a better Gateshead.
