Comment text:

As a resident in Hammerwich for the last 16+ years I can confirm that our existing boundaries work perfectly - there is absolutely no need for change. Our Residents are happy, and are represented strongly and successfully by our long established Parish Council. Our District Councillor is strongly involved in the Wards activities also. There are many many reasons why our boundary must remain the same, other than detailing the residents, parish council and District Councillors - we can detail the financial aspects, community programs, how our current boundaries are best for business, etc. I cannot say this strongly enough - our existing Ward Boundary should not be changed. It must remain the same.
