In addition to my other points I think that it is time that the West side of Worcester be given more autonomy. As the only true township to be incorporated into the City we should have greater autonomy to make direct changes to our local area. St John's, Bedwardine, St Clement's and the newly proposed Dines Green ward should also be under the jurisdiction of a town council, not dissimilar to parish councils. This would allow West Worcester to finally have a political voice that reflect the unique identity and culture of St John's and the surrounding wards.
