**Related subject:** Ward boundaries - Nunnery

As a resident of Lilburne Close, Worcester, part of the recently completed Woodland Edge new build estate, I am writing to give my support for the review of Worcester ward boundaries that ensures the entire of the estate (Lilburne Close, Cranbourne Grove, Oak Tree Crescent, Massey Drive, Harrison Grove, Mercer Avenue, Williamson Road, and Perry Wood Walk) remains part of the same ward - as per current which is Nunnery ward.

As a recently formed estate, many of us have made friends with those on the estate, including a Facebook group to support each other. However, more so is the recent creation of the Woodland Edge Community Group which represents the whole estate and has the support and engagement of local councillors.

We're the estate to be split across two wards this would likely result in an unsuccessful community group, meaning less local resident action in support of the council and MPs which also provides useful feedback to them on issues. At best we would need to accommodate additional councillors into the group and accommodate different views and political views/opinions despite living meters apart.

I thank you for your consideration with this opinion on the open consultation.
