Comment text:

Hi

I'm just writing to support the further draft proposals issued for Worcester.

Firstly, the proposed amended boundary between Cathedral and Battenhall is a much stronger boundary and better reflects the local community.

Secondly I support the revised 2 member wards in the south west of the city. Whilst no boundary is perfect, these proposals are a much better reflection of the distinct communities in that part of the city. Smaller wards will help councillors to engage more effectively with their communities. Also, St John's district centre is one of Worcester's oldest communities so it will be positive to have this area within one ward rather than split down the middle.

Many thanks
