Related subject: Proposal for revised wards in Worcester

I am a new resident in the Woodland Edge development which sits between Perry Wood Walk and Williamson Road. I gather that a proposal to split our new development into different wards is being considered. For the 215 houses on this development doesn't it make more sense and coherence to keep us in one ward?

I'd be grateful to hear why this isn't a more effective strategy please.

Thank you very much.
