Comment text:

Good afternoon

I have looked at the website pages having been given guidance by my Ward Councillor. It is difficult to comment, if these are the views of those assessing the situation, but my real question is “Why change”??? The Wards are defined – with some changes because of an increase in housing but why move Battenhall residents into Nunnery Ward. What is achieved and when will we the general public know of the changes?

Are these changes agreed by the Worcester City Council? Will they be in place before May 2024? Is the intention to reduce the Council's size but you are merely moving the roads to the south of the London Road into Nunnery Ward.

At the end of the day we will have to accept what is offered to us but it seems unnecessary and costly in these difficult , financial times.

Kind regards
