**Related subject:** The proposed division of New Hartley into 2 different zones

I object strongly to the proposed division of New Hartley along the line of Bristol Street.  
This will mean the village come under two seperate areas of governance, being cut in two. This is ridiculous.  
New Hartley is a strong community and it is absurd to divide it in such a manner. The entire village and all residents should share the same representatives for the purpose of local Government. We are a community and wish to remain so.  
This proposal will divide the village and create an "us and them" situation where funding in one part of the village could differ from the other.  
Leave our boundries as they are, we do not wish to be divided.
