Related subject: New Hartley village

I object to the boarder change for New Hartley Village, firstly the only meeting for residents had to attend was cancelled so we don't have the right information about why this has been put forward and haven't been informed of the benefits (if any) for this to go ahead!! Me and my husband have been residents of the village since 2001 and feel in love with the village life. It's now starting to lose it character. This village has had enough disruption. We don't want to lose it's history or desirability. Let the residents have their say and please hear us New Hartley NEEDS to stay as village and not split down the middle, it just doesn't make sense... take the boarder to the fields behind the village!!
