## Comment text:

**Related subject:** New Hartley

I strongly object to the proposed boundary changes for New Hartley. Its ridiculous to split a small village in two just because of boundary changes. We are part of Seaton Valley and always will be. The Village needs to remain as one, as there will be less support for the people on the very edge of a boundary. I think having two councils to deal with problems in the village will lead to chaos and half hearted work being done or none at all. It doesn't make sense to divide a small village, it would make more sense to move the Full other to one parish or the other
