Comment text:

I disagree with these proposals wholeheartedly. We moved to Prudhoe for access to the great schools. Living in Humbleswood would put us in an entirely different school catchment area despite being literally being up the hill from Prudhoe High Street.

I believe these changes will be detrimental to families etc accessing local resources as those who only allow access to Prudhoe residents will be out of reach. An example of this is the sure start centre who offer classes and valuable resources to those with a Prudhoe postcode. Surely making these changes will deprive local people of services?

The changes don't reflect the community we belong to, Humbleswood and Cottier grange are in the town of Prudhoe but our community base will now be somewhere that is a literal car drive away.
