## Comment text:

**Related subject:** Prudhoe

I disagree with the proposed boundary changes as my estate will be moved to stocksfield which is 2 villages away! I'm a recent resident who'se bought on Cottier grange as I wanted to move to prudhoe and we are part of prudhoe not Stocksfield. Two very different places with different issues.I identify as a Prudhoe resident and think local and central government should support us in this and not dictate what we should be. I'm surprised we need more elected members we already have too many and should slim down government or move to more efficient ways of listening to the community and being accountable to the community. If it's necessary please create an additional prudhoe ward of its own encompassing the south end of the town to include humbles wood, Cottier grange and perhaps the area around the high school and neighbouring farms. We want to be represented by local people for local issues and people who know our area, our families, schools etc.
