## Comment text:

**Related subject:** Northumberland as a whole

I feel that the less representation we have across the County the more we will not be heard. At present I get campaign leaflets to tell me I am 52 miles away from the nearest hospital when in fact I am on 10 miles. Our County is unique in its composition and all have VERY different needs but with a bigger ward we will simply become numbers.

Local Government should be to understand local needs but 3 representatives cannot do this.

I also think that there should be cross-party representation to ensure there is accountability. I am not politically aligned but welcome accountability with any party. There will also be forgotten isolated pockets of people who will not be represented (they currently are not now so this will be exaggerated).
