Comment text:

Related subject: Bellingham ward- Rothley parish

On behalf of the parish councillors of Rothley and Hollinghill ;

At our recent meeting of the parish council it was decided that we object to the parish of Rothley being moved to the Bellingham ward.

Rothley has recently been in the Longhorsley ward, and have been well served by their current councillor.

The parish has a small number of electorate and do not feel this would make much impact in the number of constituents in the ward.

There are several other parishes between Rothley and Bellingham and we have no boundaries, if some of these parishes, which we believe are also not wanting to move, we are not connected to the ward.

There are no traditional links between Rothley and Bellingham, schools in this area feed into the Morpeth catchment area.

Geographically Rothley and Bellingham are situated 15 miles apart in different river valleys, Bellingham connecting more with Hexham, rather than Morpeth which Rothley would.

Shopping and other links would be seen more towards the East and Morpeth.

On behalf of Rothley and Hollinghill parish councillors.
