I believe in this climate of austerity the council needs to reduce number of councillors per ward, why have 3 per ward in the first place?...it is confusing when who to contact but also the savings alone would go back into the council to make south tyneside a better place to live. Currently the pot holes and roads are a disgrace, the amount of rubbish and dog mess is ridiculous but also money needs to be better sourced in social support getting people out of hospital into their own homes...the list is endless where this money could be used better.....
