**Related subject:** Westoe

I live in the westoe area and think the ward as it is is pretty much as we would define Westoe and if I understand the figures correctly they are pretty much spot on anyway if anything is to be added I would say to take the boundary further down Mowbray road towards the path that leads to Westoe crown primary school ,

The ward is based around the Westoe village and the cemetery which is confusing as although named Harton cemetery is in what most people would consider WESTOE ,
