I am writing to voice my concern at the proposal to combine Tatsfield into a 3 member ward. While close geographically the population density, age and wealth is different to those of the proposed combined wards, as are it's needs. We have a small school, single shop and pub, there are no other facilities within walking distance and a limited transport system. Due to the positioning at the top of the downs our weather is different and the extremes of winter are felt far harder with all the impacts on roads and infrastructure. It is, despite the proximity to Biggin hill a rural, local community.

The needs of the population are different to those in the proposed combined wards and it would be difficult for a combined group to advocate successfully for policies that would benefit all 3. I echo the parish councils concern that a district ward would diminish the local connection and particular attention afforded by having a single ward councillor who understands the uniqueness of the area and its different needs and issues. This not just for Tatsfield but for each ward identified
