## Comment text:

I was shocked to see the boundary review for the above.

I struggle to see how the majority of the wards in the north of Tandridge appear to have a much higher ratio of councillors/residents than those in the south, ie those councillors in the north will be looking after far more residents than their “southern counterparts. I thought that the idea of the boundary review was to achieve greater proportionality?

Furthermore, living in Caterham I struggle to see why roads in Caterham Valley are going to be hived off to Caterham Hill and Queens Park ward which geographically makes no sense at all?!

I look forward to receiving your comments and trust my comments will be considered in the review.

Yours sincerely
