"I am unhappy to here that the Boundary Commission are considering moving Stafford Road to Caterham on the Hill, not literally but bureaucratically.

Having lived in Stafford Road for over thirty years I have been very happy being represented by a local councillor, who lives locally and understands the area that we live in.

Queens Park is so disconnected from us down in the valley I cant conceive what you can be thinking off removing our local councillor.

If I was unkind I could think that whoever thought up this ridicules idea come to it as a way of reducing the Liberal Democrats from Tandridge Council and increasing the Conservative representation, or less unkind is it from a spread sheet, rather than studying a map with contours or considering how this would alienate the residents of Stafford Road.

If you go through with this ridiculous idea I will unfortunately feel unable to vote in future local elections for a Queens Park candidate as I don't feel they could understand the different issues we have in the valley like flooding, fly-tipping and antisocial behaviour. Please keep Stafford Road in Caterham Valley.

Regards
