Related subject: Kettering Cloverhill All Saints Central

I, along with my family and friends living in All Saints and Brambleside area of Kettering, am very saddened to see the proposal to break up our communities in favour of a larger Kettering Central.

Having lived many years on the All Saints ward, attending Park Road and Montagu (now KBA) Schools, like many people in Clover hill, there has always been a tight sense of community which becomes even more apparent when visiting our pubs and clubs (The Briars, Beeswing, Midland Band and Athletic) shops and green areas. Rocking ham Road Pleasure Park and the Weekley Hall Wood are two areas in particular that have galvanised our community in more recent times, becoming focal points for marches, clean up operations, protest and many community based event, attended by people from all over All Saints and clover hill.

I fear that splicing our community in two and moving half in to the more complex communities in the town centre would provide less focus on all areas concerned.
