## Comment text:

I strongly object to the change of boundaries in Kettering.

I live in Blandford Ave and do not wish to be part of the “town centre” ward of Kettering Central. This does not reflect my local community one little bit.

I connect very strongly with the current Brambleside and All Saints areas as this is in my immediate vicinity.

I do not have transport and catch a bus on Brambleside, my local shop is on Brambleside, my local pubs are on Brambleside, play areas for my family are Rockingham Rd Pleasure Park and the two parks on Brambleside. If I had school aged children, they would attend Brambleside schools. I worship at All Saints Church on William St which has great community engagement and links with Northern Kettering, including Residential Homes etc.

As a family, we walk in Weekley Hall Woods and would encourage the boundary on Brambleside to include this.

I don't see how Councillors and residents etc of Kettering Central can understand our particular needs in the Northern area of Kettering which is very different to the needs of Kettering Central.

I think the cut off point for All Saints should be both sides of the road in Wood St. and extend to Brambleside including Weekley Hall Woods area.
