Related subject: All Saints

I believe that the all saints area is connected heavily to Brambleside. Though to my sons school with the adjoining ally ways, the pleasure park leading from Hallwood road right through to Brambleside and the links it's allows me to access weekly Hallwood. I do not wish to be part of the town centre area and love my community hub and links to all of the amazing people within the area that have in recent years since the pandemic have been working together to create a better community for us all. I propose that the cut off point should start at regent street.
