Related subject: All saints ward

I absolutely do not want to change the boundaries of our ward. We are a community that supports each other from All Saints to Brambleside, our strong connections are what make us a thriving community. The Community garden relationships with the church and members of wider of community are just one of the things that glues us together. There are so many children from our street that attend Brambleside school and this is just another link to our wider community. I would really like to understand the councils motivation for this suggested proposal, as my thoughts would be you are trying to fix something that is definitely not broken !!
